

Clymo RS: publications

- (1) Clymo RS (1962). An experimental approach to part of the calcicole problem. *Journal of Ecology* 50: 707-731.
- (2) Clymo RS (1963). Ion exchange in Sphagnum and its relation to bog ecology. *Annals of Botany, New Series* 27: 309-327.
- (3) Clymo RS (1964). Apparatus for the recovery of lost peat-borers. *New Phytologist* 63: 426-427.
- (4) Clymo RS (1964). The origin of acidity in Sphagnum bogs. *Bryologist* 67: 427-431.
- (5) Clymo RS (1965). Experiments on breakdown of Sphagnum in two bogs. *Journal of Ecology* 53: 747-758.
- (6) Clymo RS (1967). Control of cation concentrations, and in particular of pH in Sphagnum-dominated communities. *Chemical Environment in the Aquatic Habitat*. Eds Golterman HL and Clymo RS. Amsterdam, North Holland: 273-284.
- (7) Clymo RS (1967). Movement of the main shingle bank at Blakeney Point, Norfolk. *Transactions of the Norfolk and Norwich Naturalists Society* 21: 3-6.
- (8) Clymo RS (1967). Accretion rate in two salt-marshes at Blakeney Point, Norfolk. *Transactions of the Norfolk and Norwich Naturalists Society* 21: 7-8.
- (9) Golterman HL, Clymo RS (1969). *Methods for Chemical Analysis of Fresh Waters*. Oxford, Blackwell Scientific Publications.
- (10) Clymo RS (1970). The growth of Sphagnum: methods of measurement. *Journal of Ecology* 58: 13-40.
- (11) Clymo RS (1971). Mineral nutrients - a terminological inexactitude? *British Ecological Society Bulletin* 2: 4.
- (12) Clymo RS, Reddaway EJJ (1971). Productivity of Sphagnum (bog-moss) and peat accumulation. *Hydrobiologia* 12: 181-192. [Note: this contains the first measurements of CO₂ and CH₄ efflux from a peatland, and may therefore be of some historic interest. The editor simply cut sections out without any changes to what was left. This mangled version is therefore unintelligible in places. The full, and lightly revised, version is in (13) below.]
- (13) Clymo RS, Reddaway EJJ (1972). A tentative dry-matter balance sheet for the wet blanket bog on Burnt Hill, Moor House N.N.R. *Aspects of the Ecology of the Northern Pennines, Occasional Papers No. 3*, Institute of Terrestrial Ecology: 1-15.
- (14) Clymo RS (1973). The growth of Sphagnum: some effects of environment. *Journal of Ecology* 61: 849-869.
